

Furman University Data Science and Machine Learning Club

Article I - Name

The name of this organization is Furman University Data Science Club.

Article II - Introduction

The Furman University Data Science Club is a student-run organization that aims to create a group of people equipped with all the skills needed for the data science field, with capstone projects and helping researchers all around campus with data-related research. We hope to educate members through student, faculty and guest-speech-led discussions; in conjunction with projects using the application of data science in numerous fields. Similarly, we aim to explore machine-learning concepts in real-world data to strengthen the skill.

Article III - Objective

The objective of the club is to raise awareness about the application of data science and train data enthusiasts with projects and real-life data.

Article IV - Membership

Anyone is welcome to be a member of the club. But every member is expected to complete a group capstone project guided by the faculty members, which can be an added project in the resume. Members should have at least attended two meetings in a semester.

Article V - Officers

PR Rep: The PR rep is responsible for informing the Furman community about the club through flyers, syncDin, Facebook, and through any other form of media that may benefit the club. They will also ensure that there is high attendance.

Secretary: The role of the secretary is to keep attendance and approve membership in the club. They also must handle documentation and minutes for the meetings.

Head of Finance: The head of finance is responsible for handling finances and making the budget for the academic school year. The treasurer must request money from Student Government Association every academic school year and fill out expense requests if/when they are needed.

Vice President: The role of the Vice President is to create a curriculum for the following semester, assist the club members and organise most events.

President: The role of the president is to facilitate meetings, resolve conflicts, assist/ oversee the executives, communicate with professors/outside entities (other clubs, guests) and approve capstone projects.

An election for the officers will happen every academic school year. Voting will occur through a meeting where members of the club may nominate and vote on who should be in these positions. A majority vote for each position is required.

Article VI - Finances

Furman University Data Science Club shall petition the Furman Student Government Association for funding the club annually. The money requested will be based on the cost needed for projects, organizing hackathons, participating in programs organized by Kaggle and other institutions, etc. Members of the club must pay their dues before attending classes if the money provided by SGA is not adequate for the club.
